Sjögren's Center - Moving Location

Dear Valued Patient,

Thank you for trusting Johns Hopkins Medicine to meet your healthcare needs. We would like to share our plan to **relocate the Sjögren's Center** to a different building on the Johns Hopkins Bayview Medical Center campus. You will continue to receive the same trusted care from your same physicians and clinical staff but in a new location.

Beginning the week of July 31st, the Sjögren's Center will move to the Bayview Medical Offices, located next to the East Parking Garage on the Johns Hopkins Bayview campus (see the red circle on the enclosed map). This location is more centrally located, with close access to imaging, laboratory, and pharmacy services.

Your care team will work with you to make this a smooth transition. Here are a few important notes:

- **Contact Number:** The Sjögren's Center's phone number will not change. You can continue to call 410-550-1887 to reach your care team and 443-997-1552 to schedule your appointments.
- **Parking:** The new location for the Sjögren's Center is on the ground level of the Bayview Medical Offices. When you arrive on campus, follow signs to the **East Parking Garage on Mason Lord Drive**. Park in the garage. Overflow parking is available in the 301 Parking Lot next to the garage. The amount you pay for parking will not change.
- **Location:** Enter the Bayview Medical Offices through the Blue Awning. An employee at the security desk will direct you to the Sjögren's Center once you enter the building.

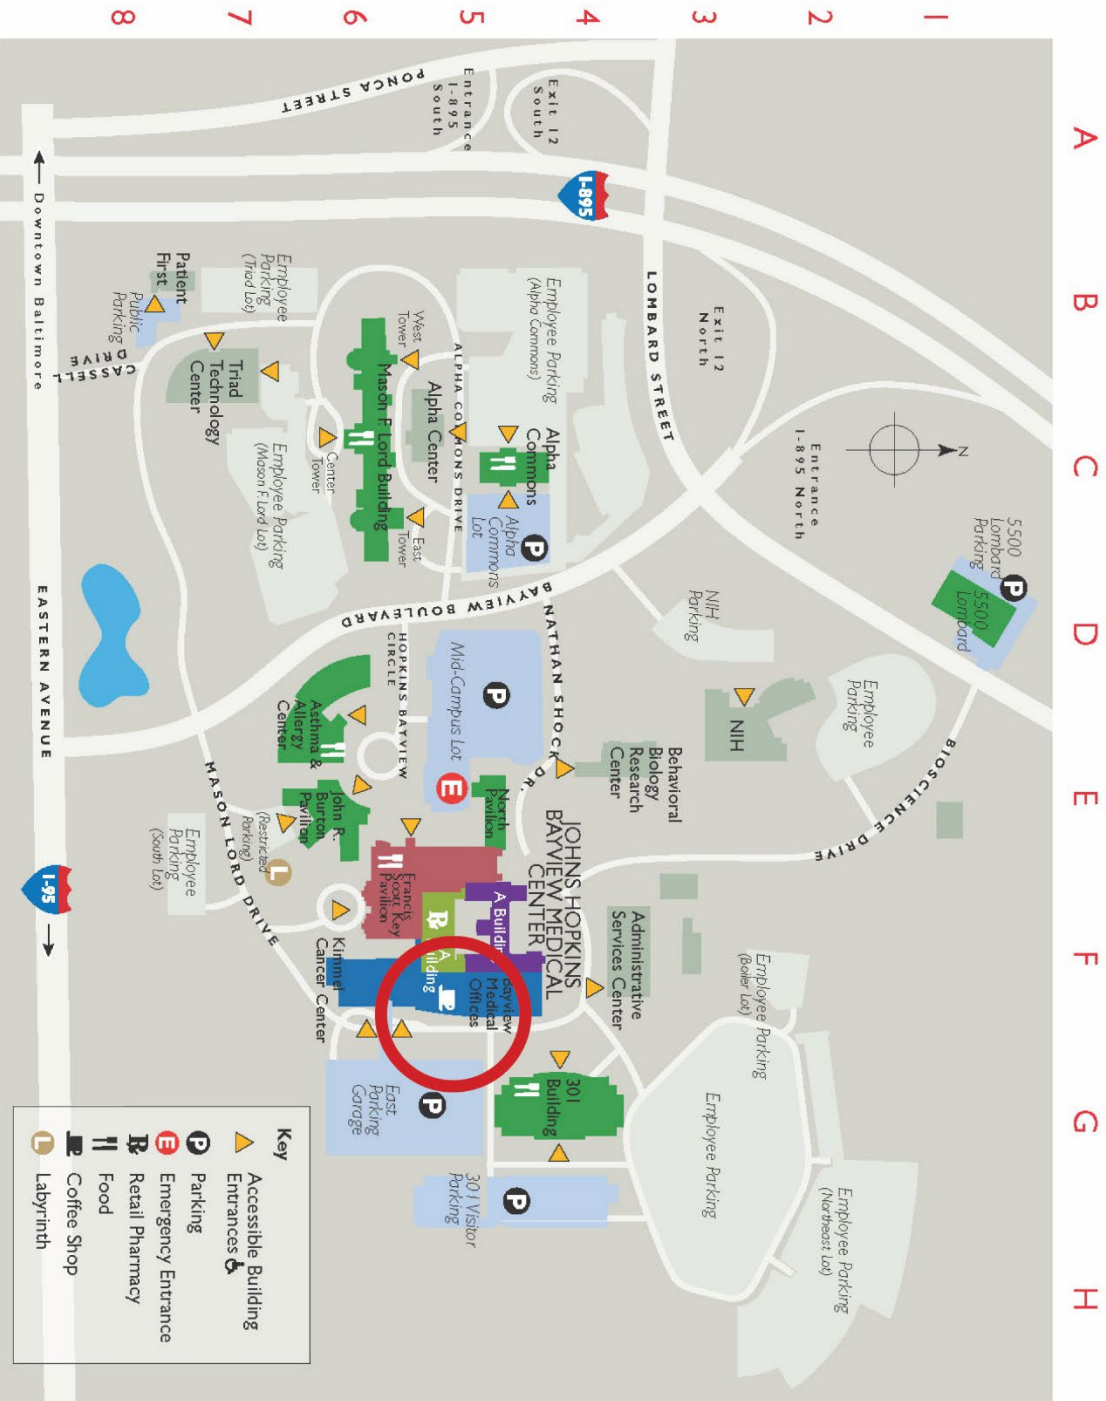

Up-to-date information will be available online at hopkinsrheumatology.org/. Your care team can help with any questions you may have. You will continue to receive excellent medical care from our Johns Hopkins Medicine team. It is our privilege to serve as your healthcare provider.

Sincerely,

A handwritten signature in cursive script that reads "Laura Hummers".

Laura Hummers, M.D.
Associate Professor
Clinical Director, Division of Rheumatology
